

Our Mission

Our mission is to present the Gospel of Jesus Christ to people through powerful musical events.

Our hearts long to see people come to know Jesus Christ as their Savior, and to see people put their faith into action by living out the Gospel.

Our music is dynamic rock-and-roll with a solid foundation of acoustic and electric blues.

Frequently Asked Questions:

How long have you been doing this?

Our team was formed in the winter of 2006 and we began touring in the summer of 2007.

What church are you from?

Our home church is Community Life Church in Crystal Lake, Illinois. Several team members are from other churches.

Who is your target audience?

We work with your church to tailor the message for each event to the audience that you want to reach. We do Community Outreach events, Youth events, and Invite-a-friend to church events to name a few.

How would you summarize the message in the music?

In spite of all the injustice and suffering in the world, God loves you and wants to know you. The story parallels the Gospel, as the main character dies for the sins of someone else. The messages in the music fit a variety of sermons and response times.

So this is live music?

Yes. We bring a full band complete with lights, visuals and a technical support team.

What does the music sound like?

Our music is blues-based rock-and-roll. Some of our musical influences include Stevie Ray Vaughan, Kansas, and Santana.

What nights are you available?

Events work best on Saturday and Sunday nights. Friday's are possible with enough notice, and on special occasions we'll even consider a weeknight.

How long is an event?

About 90 minutes. The music alone is about 50 minutes, and the sermonettes and closing are about 30 minutes. We wrap up with some upbeat closing praise music to send people out soaring.

How much does an event cost?

Compensation is based on a variety of conditions. We are willing to work within just about any budget in order to make a difference in people's lives. If you're interested in hosting an event, we'd love to talk with you about how to make it happen.
